FS-Elliott Company Honored by *Pittsburgh Business Times* as 2008 Manufacturer of the Year

Export, PA – December 10, 2008 Pittsburgh Business Times named FS-Elliott Co., LLC the Manufacturer of the Year in the medium company category for the second consecutive year. The Manufacturer of the Year is awarded to the best manufacturing firms in Western Pennsylvania in the small, medium and large business categories.

Based in Export, Pennsylvania, FS-Elliott manufactures and services custom engineered and industrial air compressors for global industries including air separation, petrochemical, oil and gas, textile, steel making, and many others. The company was established in 2003 when Fu Sheng Industrial Co. of Taipei, Taiwan, purchased the air compressor division from Elliott Turbomachinery Company. Since acquiring the business, FS-Elliott has grown sales to more than \$100 million in 2007 from just over \$30 million in 2003.

“We’re able to be much more adaptive than bigger companies are,” said CEO Ronald Stewart.

FS-Elliott continues to expand its presence around the globe. In April of this year, FSE entered into a joint venture with GAS Arabian Services in Jubail, Saudi Arabia, to provide products and local service to customers in the Middle East. Dennis Thomson, CEO of DNS Innovations and Manufacturer of the Year Judge, called the move “agile and responsive to customer needs.” “That’s the sign of a very progressive and aggressive company recognizing opportunities to differentiate in the marketplace,” said Thompson.

Pat Mohan, Vice President of Operations, accepted the award on Thursday, December 4th, at the Omni William Penn Hotel in Pittsburgh, PA. FS-Elliott was featured in the 2008 Manufacturer of the Year supplement to the *Pittsburgh Business Times* on Friday, December 5th, 2008.
